We are a family-owned Austrian company that has developed over the past 25 years into a global specialist with the Wellion brand in the areas of diabetes, health and well-being. The driving force behind our success is our standard of high quality, which our business concept captures in a nutshell.</p>	medtrust.se	2007
MedVasc AB	Lund	<p>MedVasc AB is a medical device company which focuses on developing Solutio™, a patented medical device that reduces pain when treating varicose veins. The device can painlessly anaesthetize locally, enabling doctors to refrain from the usage of sedative or pain relief treatment as a result of which patients can go home immediately after the treatment.</p>	www.medvasc.se	2013
Medviso AB	Lund	<p>Medviso is a Swedish medical technology company with a mission to take the latest research into clinical routine.</p>	www.medviso.com	2007
Miclev AB	Limhamn-Malmö	<p>Miclev AB supplies the Nordic market with diagnostic products, chemicals and consumables for the life science industry.</p>	www.miclev.se	1990

NanoEcho	Lund	<p>Currently, reliable diagnostic methods in preoperative evaluation, for lymphatic spread in rectal cancer patients are lacking – in particular, methods to rule out that rectal cancer has spread to the lymph nodes. We have identified a void in today's care and a great need for a more reliable rectal cancer staging.</p> <p>At NanoEcho, we specialize in a novel, user-friendly imaging method known as magnetomotive ultrasound. As the contrast agent for medical ultrasound imaging, we use iron-oxide-based nanoparticles. The images are generated by visualizing NanoTrace® signals and are intended to facilitate the differentiation between diseased and healthy tissue. The method makes it possible to detect cancer spread to the lymph nodes before surgery.</p>	nanoecho.se	2013
Nasalprodukter Sverige AB	Malmö	Develops Windi®, a natural aid for infants with colic and other gas problems.	https://www.fridababy.se/	2007
Neola Medical AB	Lund	<p>Neola Medical AB is revolutionizing neonatal intensive care with NEOLA®, a medical device that can offer continuous lung monitoring and real-time alerts of life-threatening complications using a cutting-edge technology that measures lung volume changes and oxygen gas concentration. The company's proven technology uses laser spectroscopy to continuously measure lung volume changes and oxygen gas concentration in preterm infants.</p>	https://www.neolamedical.com/	2016

Neuronano AB	Lund	Our primary focus is to develop innovative electrodes for Deep Brain Stimulation (DBS), with the aim to improve the quality of life in people with various neurological illnesses. The plan is to use these solutions to alleviate difficult diseases and conditions such as Parkinson's, various types of pain and epilepsy. Progress at Neuronano is achieved while navigating according to a stringent ethical compass with the course set to the greatest level of thoughtfulness and care for the people we want to help.	neuronano.se	2006

Uman Sense AB	Lund	UmanSense AB is a medical device company which develops solutions for medical challenges by combining medicine with mobile technology and mathematical science. The company is currently working on a solution to help stroke patients receive proper treatment in time.	www.umansense.com	2014
VibroSense Dynamics AB	Malmö	VibroSense Dynamics AB sells a medical device which supports diagnosis of peripheral sensory neuropathy, i.e. nerve damage, in hands and feet. The company offers the VibroSense Meter II, an instrument for the early detection of impaired vibration sensibility in human hand and fingers, caused by peripheral sensory neuropathy.	www.vibrosense.com	2004
Virotea	Malmö	Virotea offers services specially developed to fulfill the needs of retirement homes and special needs housing (LSS). Virotea has developed a virtual reality app that is used by clients within the healthcare and social care sectors.	virotea.com	2017
Vitrosorb AB	Malmö	Vitrosorb AB is a Swedish medical device company that develops, produces and markets immunoadsorption columns aimed to eliminate the blood group barrier of organ transplantation. SECORIM®-ABO is an immunoadsorption column designed to exclusively reduce the number of A or B antibodies.	www.vitrosorb.com	2009

Xaga Surgical AB	Helsingborg	<p>Xaga Surgical's mission is to minimize the risk of infections by inventing safer medical needles. The company's needles focus on the very core of infection prevention: reducing bacterial transmission into the body. Widespread antibiotic resistance means that novel approaches for infection prevention are desperately needed. They develop patented and patent pending medical needles designed for a wide range of situations where there is a risk of infection. For example, prostate cancer is diagnosed using a biopsy needle. Up to 3% of biopsy procedures lead to sepsis, a life-threatening infection, and this number is on the rise. The infection is caused by bacteria brought into the body by the biopsy needle. Their biopsy needle design reduces the bacterial transmission by 96%.</p>	https://www.xagasurgical.com/	2016
Zimmer Biomet Sweden AB	Malmö	<p>Our mission is to alleviate pain and improve the quality of life for people around the world.</p>	zimmerbiomet.eu/en	1996
